

Dear Svetlana:

This is to express profound thanks for your participation in URTA's Graduate School Audition Workshop at ACTF in LA earlier this month. It was a great success – good attendance, engaged attendees, great results, and grateful responses. You were terrific and provided the students (and some of their faculty) a real eye-opener – this is, at least in part, what graduate training will be about... these are the challenges ahead... and more. Clearly, working with you excited the students and brought remarkable, immediate results to their audition pieces.

Best,

Scott
